In the world of Dawn, two thousand years have passed since the end of the Great War. Elden, a being that appeared from the Void which connects all worlds, was defeated in the war that raged among the living and the dead. To prevent anyone from forging weapons of terrible power, the Grandmother decreed that some of its essence was sealed within the living body of an Elden Lord, who would stand guard over the seven members of the Great Council to maintain this balance of power. In the past few years, the war against the Elden had subsided into a state of relative peace, but the peace came to an end with the disappearance of a girl named Misha. In the wake of that event, Elden once again appears, and races on the night of the summer festival have begun. The hero of this game and main character Yuna Arkadia has lived in the Castle of Legendary Elden Lords for her entire life. The rule of the Elden had seemingly brought joy and prosperity to the lands, and Yuna herself lived peacefully with her friends, and participated in the life and activities of the Castle in preparation for a future that seemed to be going well. However, when she goes outside the Castle to move her belongings into her old home, she finds Misha the lost girl lying dead in the center of a strange shadow that emanates from the tower of the gigantic Elden Wizard. And when she enters the tower to investigate what happened, she encounters the wizard, and a demon named Valcardin. A strange dream where the two worlds meet begins to unfold before her. Yuna needs to understand the truth behind this new world, in order to rescue Misha before it's too late. But they are not the only ones who sense a dark shadow that is steadily approaching, and the reason behind this becomes more and more apparent as the action picks up.
