April 5, 2017 That's right, you can now get AJDA on your Android, iOS, or desktop browser! We've added lots of new features and important updates since we launched the iPad app several months ago. It's a really polished and addictive game, but it's still a new experience on mobile! AJDA is really big on collecting and using "i." How can you complete a level without using your phone or tablet? We're adding all sorts of new and innovative features to AJDA — speed control, extra lives and upgrades, enhanced control methods, and more. This April, you can now play AJDA on your mobile device — no matter which one it is. (And there are new ones, like the Google Pixel, if you didn't get one the first year!) People are loving how fast AJDA is on mobile, and you can also sync it to your other devices (iPhone, iPad, or Android). The free version of AJDA is now available on the App
