Soft Xpansion Perfect PDF Print Crack

What's New in the?

Soft Xpansion Perfect PDF's editor component features powerful, integrated text editing functions. It provides users with a variety of options for adding, modifying or removing text as well as editing and inserting images. It includes advanced OCR (optical character recognition) and dictionary features. OCR is particularly useful for handwritten text, and also for conversion of scanned documents, where user can import the scanned text as text files. Users can also attach text-based or image-based digital signatures to PDFs. Users can also define custom fields for PDF files, which can be used to store specific information about a document. For batch-processing tasks, such as deleting or adding pages to PDFs, exporting text and images to other formats, soft Xpansion Perfect PDF offers a comprehensive set of batch-processing features. Features: What's New: Version 1.4.13: - Performance Improvements; - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages Version 1.4.12: - Minor Bug Fixes What's New: Version 1.4.11: - Minor Bug Fixes What's New: Version 1.4.10: - Performance Improvements; - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages What's New: Version 1.4.9: - Performance Improvements; - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages Version 1.4.8: - Performance Improvements; - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages What's New: Version 1.4.7: - Minor Bug Fixes What's New: Version 1.4.6: - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages Version 1.4.5: - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages Version 1.4.4: - Minor Bug Fixes What's New: Version 1.4.3: - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages Version 1.4.2: - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages What's New: Version 1.4.1: - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages Version 1.4: - Performance Improvements; - Fixed an issue which caused users to have difficulty generating PDFs with more than 100 pages - Fixed an issue which caused users to have difficulty generating PDFs

with more than 100 pages What's New: Version 1.3.8: - Fixed an issue which caused users to
